

Sprint Retrospective		Iteration Sprint 5				
<b>Project</b>	GoGreen					
<b>Group</b>	86					
User Story	Task	Task Assigned to	Estimated Effort (in hours per person)	Actual Effort	Done	Notes
Try to lay down some helpful code to help us work on the next features smoothly	Creating the table of the countries with their respective average footprint./ Create the model classes, repository and tests for all the tables in the database.	Nafie	8	10	Yes	The table is up on the database with 188 different country
	Creating my activities page / the FXML class with their respective tests. / The FXML of the dashboard for adding a new activity.	Silvu	9	10	Yes	--
	Creating the FXML of solar pannels and lowering temp activities.	Stef	7	6	Yes	--
	Rewriting the restful classes	Gijs	8	8	No	Still need to connect it to the GUI
	Building the backend of the meal and activities / Connecting the GUI to the server.	Waqgas	6	8	yes	The demo is ready for week 6.
	The gui for the local product + controller	Axiaan	7	8	Yes	--
	Creating sessions / creating the pipeline on git for automatic building and testing	Kalin	9	10	90% done	Still ned some tests for the sessions.
Main Problems Encountered						
	This week was smooth because we did a lot of research before, so it was just a matter of coding					
Adjustments for next Sprint Plan						
Focus more on the other activities to meet the deadline for the next demo.						
Do more tests for everything and try to have other features done for the next week or two.
