

Sprint Retrospective		Iteration	Sprint 3				
Project	GoGreen						
Group	86						
User Story	Task	Task Assigned to	Estimated Effort (in hours per person)	Actual Effort	Done	Notes	
Initiating the project and doing some research	Building the GUI	Anxiaan / Silvu	7	6	Yes	--	
	Buidling the Dtabse On heroku	Nafie / Gijs	8	6	Yes	We encountered SOme problems putting the database on Heroku	
	Doing some research about SpringBoot	Kalin	8	8	Yes	Got some pretty good results that helped us.	
	Desingning different screens for the app	Stef	8	7	Yes	The first screens are done.	
	Building the user authentication	Waqgas	8	7	Yes	--	
	Deciding how we are going to calculte the score	ALL in a meeting	2	2	Yes	The decisions are on git.	
Main Problems Encountered							
Problem 1	Deploying the database on Heroku						
Description	The Heroku command didn't recongnize the user on our computer.						
Reaction	We created the databse from scratch directly on Heroku and that worked fine						
Problem 2	Structuring our project.						
Description	We had a package for the Heroku server inside of the client package.						
Reactions	Waqgas did some research and figured out how to do that.Our porject is now well structured.						
Adjustments for next Sprint Plan							
1	We will focus on one feature "Eating vegetarian meal" in order to have it done by Monday.						
2	We will focus also on spring boot to have it done, before statring to implement the other features.
